

IN HONOR OF CHILDREN'S THEATRE COMPANY CELEBRATING 11 YEARS

VISION

CTC is rooted in the conviction that through the magic of theater, children and youth can be the voices of positive change and agents of healing in their community.

MISSION

Through the creation of a new catalogue of socially and ethically relevant musical theatre productions, CTC partners with public schools and uses a community-based theater model to engage young people as the voices of positive change.

Dedicated to “Building Character Onstage”, CTC partners with professional artists, parents, educators, and community builders by providing after-school and weekend theater residencies.
